## IT STARTS WITH A CALL TO VBR: 800-233-3603

### 1 WE ARE RESPONSIVE

When an operator, service company, rental tool company, drilling company, workover company or completion company contacts **VBR** - by phone, fax or online request - we spring into action.

### 2 HUGE RAM & ELASTOMER INVENTORY

Our elastomer inventory is stored in a modern, climate controlled 3,000 sq foot facility. We've grown into a 26,654 sq foot warehouse/shop that holds our blowout preventer ram stock of more than 1,300 in different types and sizes.

### 3 HIGH STANDARDS OF QUALITY

Our procedures ensure conformance to blowout preventer rams specifications that meet and even exceed the OEM, API, NTL, BOERME, and customer requirements.

#### WHAT DOES VBR DO TO ENSURE SATISFIED CUSTOMERS?

- All equipment endures a MPI inspection for every job
- We only stock Cameron, GE Hydril and NOV (Shaffer) rams
- VBR has full traceability on all components of our inventory
- Certificates of conformance (COC) are provided with equipment
- Rams are shipped out via a third-party trucking company

We provide a wide variety of OEM blowout preventer rams including:

- Variable bore rams
- Dual and straight bore rams
- Flex bore rams
- Shear rams
- Casing rams
- Blind rams

### 6 RETURNED RAMS ARE THOROUGHLY CLEANED, INSPECTED & RESTOCKED

Once a ram is returned, the experienced BOP ram specialists at VBR thoroughly clean and inspect all components for damage. Only when a ram is cleared by a knowledgeable inspector will it go back into our inventory.

### 5 QUALITY SERVICE

Whether you have a longer term ram rental need or a shorter job timeline, VBR is here to help. A VBR BOP specialist will notify the customer when it is advisable to replace elastomers and/or ram blocks. *Replacements may also be needed following a well transfer if the rig can no longer achieve a pressure test on the BOP.*

### 4 MAP FOR SUCCESS

We can get OEM blowout preventer rams to your well site anytime and anywhere. We have equipment stored in South Louisiana, Texas, the United Kingdom and Singapore. We can fulfill your ram rental needs at a moment's notice world wide.
